Lot: 2158 Date: 1915 - 1972

Fredy Beck was an Austrian schoolboy who came to England on the Kinder Transport in c.1937 and settled in London. His father Rudolf, mother and brother Hans were sent to a concentration camp but survived, and Rudolf ran a transportation company in Vienna after the War. This lot comprises mail to and from Fredy and other members of his family from 1915 to 1972. The contents of the envelopes have not survived, but the postcards can be translated. Some research should yield an interesting story. (24 items)
